

## FUNDACION ESCUELA DE SOLIDARIDAD

The Solidarity School Foundation (Fundación Escuela de Solidaridad/FES) is a no-profit organization located in Sierra Elvira, just ten kilometers from Granada (Spain) born in 1997, even if its activities started in 1995. The Fundación hosts and supports people in situations of vulnerability and social exclusion. In our self-managed community we receive mothers with children in emergency situations, young immigrants, people with special needs without family, teenagers in risk situations or other people in need of a home. Our aim is to create a sense of an extended family, life in solidarity and education in values and to give support for personal development and social (re)integration. The educational role falls to all members, since each one is a reference point for the others.

## FESTIVAL KREARTE

Art represents an infinite space for expression, relationship and growth, capable of breaking down barriers and giving voice to unjust situations.

For this reason, we want the world of Art and Social Art to have a platform for dialogue and experimentation that grows and consolidates innovative and effective methodologies for social inclusion.

The FOURTH edition of the KreArte Social Art Festival will take place in Granada from 11 to 14 May 2023.

It is a festival that aims to give visibility to different artistic practices as a tool for social inclusion.

Workshops, performances and an extraordinary parade will take place in various venues in Granada and province, open to the participation of students, artists, associations, NGOs, social workers and anyone interested.

## GRANADA

Granada is a city in the region of Andalusia in southern Spain, on the slopes of the Sierra Nevada mountains. It is famous for its great examples of medieval architecture dating from the Moorish occupation, in particular the Alhambra.
